Website Portfolio

I build polished websites for businesses that need to look credible, sharp, and easy to trust online.

This portfolio is a short selection of finished website work across software, ecommerce, consultancy, beauty, and travel brands.

Selected Work

1. Sinnthetic

Live site: <https://sinnthetic.com/>

Type: SaaS conversion website

Sinnthetic is a website for an AI receptionist product built for contractors. The page is structured around the cost of missed calls, the product offer, audio demos, pricing, trust, and a clear setup call path.

What was built

- Dark, conversion-focused landing page
- Video sales section
- Audio demo section
- Pricing and guarantee sections
- FAQ and contact flow
- Founder and credibility area

Why it works

The site makes the problem feel immediate, then explains the product in a direct way. The design is built to feel urgent, premium, and practical instead of generic.

2. Kalikasan Ko Ventures

Live site: <https://kalikasan.vercel.app/>

Type: ecommerce catalog website

Kalikasan Ko Ventures is a multi-page catalog site for compostable packaging products. The website organizes product formats, material information, business inquiries, and brand story into a clean shopping-style experience.

What was built

- Homepage
- Shop and product catalog
- Material education page
- About page
- Business inquiry page
- Contact page

Why it works

The site turns a product catalog into a stronger brand experience. It makes the packaging feel considered, organized, and easier to understand for both consumers and business buyers.

3. EagleMind Consultancies

Live site: <https://eaglemindco.com/>

Type: consultancy website

EagleMind Consultancies is a premium website for a Bahrain-based consultancy. The site presents business services, founder credibility, training programs, values, and contact paths in a structured one-page format.

What was built

- Hero section
- About and founder sections
- Service overview
- Training program section
- Principles and values section
- Contact form and WhatsApp path

Why it works

The site gives the consultancy a calm, professional presence. It organizes a broad service offer into sections that feel clear, credible, and easy to scan.

4. Pourelle Beauty Salon

Live site: <https://pourellesalon.com/>

Type: beauty salon website

Pourelle Beauty Salon is a women-only salon website for AlSayh, Bahrain. The site presents salon services, booking options, location details, and contact information with a soft, polished visual style.

What was built

- Hero section
- Service menu
- Booking calls to action
- Location section
- Google Maps embed
- FAQ and footer contact links
- Floating WhatsApp button

Why it works

The site makes the salon feel more complete and trustworthy while keeping the booking path simple. Visitors can understand the services quickly and contact the salon without friction.

5. NAILE Salon

Live site: <https://naile-salon.vercel.app/>

Type: beauty and salon website

NAILE Salon is a nails and hair website for Galali, Bahrain. The site uses a more editorial style, with mood-based visuals, service sections, location information, and Instagram booking.

What was built

- Hero section
- Nail mood cards
- Services section
- Hair section
- Location section
- FAQ
- Instagram booking path

Why it works

The site gives the salon a stronger personality. It feels stylish and expressive while still making the core actions simple: browse the look, find the location, and book.

6. Nautilus Travel and Tours

Live site: <https://nautilustravelandtours.com/>

Type: travel agency website

Nautilus Travel and Tours is a media-heavy travel website with destination visuals, tour packages, itinerary details, gallery content, reviews, team information, and a contact form.

What was built

- Video hero section
- About section
- Services section
- Package carousel
- Itinerary drawer
- Gallery section
- Reviews and team sections
- Contact form

Why it works

The site uses movement, destination imagery, and package structure to make the travel experience feel active. It gives visitors both atmosphere and practical trip details.

What I Build

- Landing pages
- Business websites
- Product catalogs
- Booking-focused websites
- Service websites
- Media-heavy websites
- Contact and inquiry flows

Working Style

The goal is simple: make the business look better online, make the offer easier to understand, and make the next step obvious.

Good design should not get in the way. It should make the business feel more credible before the visitor has to think too hard.

Closing

If you need a website that feels sharper than a template and easier to trust than a basic page, message me.
